NOTES AND ORDERS

For the reasons stated on the record, the Court denies from the bench defendants' motion to transfer or dismiss, Dkt. No. 36. There will be no further written order.

The parties are directed to submit by April 22, 2021, a revised, jointly-proposed case schedule that goes through a summary judgment hearing. The parties should use firm dates for the schedule, and plan for class certification proceedings to follow the close of fact discovery. Summary judgment should be planned to avoid duplicative cross-motions, which are not permitted.

The parties state they will engage in private mediation as their ADR method. The parties will file by May 10, 2021, the name of their jointly-chosen mediator.
